

Berkeley-East Bay Humane Society
Community Lecture Series

RAISING YOUR PUPPY-TO BE ALL HE or SHE CAN BE
Discovering and Developing Potential

Presented by: Nancy Frensley, CPDT

WHEN: TUESDAY, September 30, 7 to 9 PM

TOPIC: Getting your puppy off to a good head start requires good organization, consistency, supervision, repetition, and appropriate consequences. You are always balancing health and behavior. It's easy to think your puppy will be born with all the nice attributes of Lassie, but turning your puppy into that great companion takes forethought and effort. This lecture covers all the essential elements of starting that puppy right: Management systems, Setting Boundaries, Appropriate Play with people and dogs, Living with other pets and children and Setting and achieving Lifetime goals

Nancy Frensley, CPDT, CAP 2 is the training manager here at the Society. She is a certified pet dog trainer and is an Associate Member of the International Association of Animal Behavior Counselors. Her extensive career with animals has given her in depth knowledge of the workings of the dogs' mind and emotions and an ability to bring this understanding to others.

LOCATION: The Berkeley-East Bay Humane Society,
2700 Ninth Street (at Carleton) in the Training Room. People only please.

REGISTRATION: Sign up Online at:
http://www.berkeleyhumane.org/Training/K9_College_Enrollment.htm
